You have foundational controls in place, but the gaps are material. Partial coverage in regulatory and vendor risk areas is exactly what examiners find during deficiency reviews. The work done so far is a start — it won't hold under scrutiny.

Domain Breakdown

AI Governance		At Risk · 3/6
Cybersecurity		At Risk · 4/6
Infrastructure & IT Controls		At Risk · 2/3
Regulatory Compliance (SEC/FINRA)		At Risk · 3/6
Data Privacy & Retention		At Risk · 2/3
Third-Party / Vendor Risk		Exposed · 2/6

What This Means

Key gaps likely exist in AI governance documentation, communication archiving completeness, and vendor risk formalization. These aren't minor items — they appear on exam reports and generate remediation timelines.

NEXT STEP

Book a Full Governance Assessment

This assessment surfaces where the gaps are. A full assessment tells you exactly what's at risk, what examiners will find, and what it takes to fix it — before they do.
